Date of birth: .....

Address: .....

Gives permission to the physician in attendance:

Name: .....

To use medical data: YES NO (please circle your choice)

To use photographs: YES NO (please circle your choice)

For the European Cytogeneticists Association Register of Unbalanced Chromosome Aberrations (ECARUCA).

ECARUCA is a database which collects and provides cytogenetic and clinical information on rare chromosome disorders.

- ECARUCA was initiated by the European Cytogeneticists Association and is supported by the European Union.
- ECARUCA aims to improve patient care and collaboration between genetic centers in the field of clinical cytogenetics.

Information about ECARUCA is available on the internet ([www.ecaruca.net](http://www.ecaruca.net)). Patient information will be provided anonymously. All pages with medical information or photographs are password protected. Access to these pages is restricted to professionals.

The permission concerns:

Name: .....
